3. Travel for free
4. Experience the latest in technological advancements
5. Become part of a growing community of dentists committed to improving the future of dentistry
6. Click [here](#) to fill out the Examiner Interest Form

The CITA Administration

CITA is an independent regional testing agency that administers the ADEX dental and CITA dental hygiene clinical licensure examinations in the states of Alabama, Louisiana, North Carolina and the territory of Puerto Rico. CITA continues to engage state boards, practitioners, and educators in the examination development process to maintain a superior clinical licensing examination.

Quality and Consistency

CITA maintains a clear commitment to quality and consistency during the exam administration process:

Quality Assurance Committee:

A quality assurance committee reviews the process and documentation utilized at each exam site to ensure proper and consistent application of established policies and protocols.

"Real-Time" Exam Performance:

CITA utilizes an electronic software system developed by Brightlink, Inc. to administer and manage the administration of each licensure exam in real time.

Calibrations are now administered electronically, and examiners can view results of their calibration quizzes in real time.

Travel with CITA!

Enjoy dinner and entertainment in some of the most exciting cities on the east coast!
