2018

What we have to offer you and your school

CITA administers the ADEX Dental Exam as well as the ADEX Dental Hygiene Exam. ADEX is the most widely accepted dental licensure exam in the U.S.

www.adexexams.org

Through efficient, expedient, and professional administration of these exams, CITA is able to deliver exam results quickly and efficiently.

CITA's mission is to provide psychometric, technical, and administrative services in the administration and delivery of clinical licensure examinations in dentistry and dental hygiene.

Benefits of choosing CITA

- Candidates who are able to network through their local clinics to find patients are often less stressed because:
 - **Travel arrangements for patients are less expensive.**
 - **Patients are local and communication is face-to-face.**
 - **The network is larger for finding backup patients, if needed.**
- At many of our testing sites, students of record receive discounts on facility fees, which helps candidates save money.
- CITA allows **D3 students** to begin the licensure exam process.
- If needed, remediation presentations are provided to help students prepare to retake the ADEX Dental Exam.

Make sure you & your classmates mention CITA to your faculty members. Feel free to call or email our office with any questions you may have.
